New York, NY

Is it typical adolescent behavior, or is something else going on? Join PIA and The Jed Foundation (JED) for an in-depth exploration of adolescent emotional and mental health. What behaviors may be indicators of trouble? When should parents step in? What life skills should parents teach their children to help them develop resilience?

13 Reasons Why, *Dear Evan Hansen* and *Ingrid Goes West* have recently brought these challenges into sharp focus. Don't miss this timely and important event!
